Anderson & Kreiger attorneys bring decades of experience to a wide range of complex environmental issues. More than a dozen of our attorneys regularly advise clients on environmental matters in New England and across the country. The breadth and depth of our experience allows us to quickly and comprehensively evaluate complex matters for our clients. We understand what is important to both private and public sector entities and work closely with them to achieve their goals. Best Lawyers and Chambers USA consistently name us as a leading firm for environmental law and litigation.
