Based on our experience and reputation, we are often asked to help parties resolve environmental, real estate and land use disputes through alternative dispute resolution. Our mediation experience includes:

- Resolving many environmental disputes involving oil and hazardous material contamination, including DEP enforcement actions.
- Mediating numerous land use cases involving a variety of projects, including wireless communications facilities and multi-million dollar beachfront properties.
- Resolving complex, multi-party Superfund cost recovery and allocation cases.
- Mediating dozens of wetlands disputes.
