A&K handles complex and high visibility matters for a range of state and regional agencies and authorities. This work includes major real estate transactions, complex procurement matters, **airport matters** and **major land use** and **environmental issues**.

- We helped the MassDOT Aeronautics Division update and streamline its regulations, and currently advise the Division on efforts to integrate drones into the Massachusetts aeronautical landscape.
- We represent the Massachusetts Gaming Commission, the authority overseeing the development of a brand-new gaming industry in Massachusetts. To translate the Commission from broad legislative concept to reality, we helped create regulations on everything from governance to horse racing. More recently, we cross-examined numerous casino applicants on behalf of its Investigations and Enforcement Bureau.
- We helped MassDevelopment acquire portions of a state school from Massachusetts in a joint venture with the Taunton Development Corporation. To make the deal, we advised MassDevelopment on special legislation authorizing the purchase, and negotiated multiple leases and a land disposition agreement with various Massachusetts departments.
- We work on various projects for the MBTA and MassDOT, including procurement of vehicles and locomotives, as well as construction matters.
