- We were local counsel to Tomkins plc, a global engineering and manufacturing company, in connection with a \$1.6 billion syndicated credit facility.
- We helped a New England developer acquire, finance, sell and lease retail shopping centers and commercial buildings in Massachusetts, New Hampshire and Rhode Island.
- As Lexington Town Counsel, we helped the Town negotiate a Tax Increment Financing Agreement with Shire Human Genetic Therapies and Patriot Partners Lexington to enable the redevelopment of the former Raytheon property on Route 2 for Shire's world headquarters. The redevelopment included more than \$300m in capital investments. The property was rezoned as part of this process, and it is currently used for biotechnology, manufacturing, research and office purposes.
- We advise a summer camp with properties in New Hampshire and Massachusetts on the leasing, financing and development of its campuses.
